*Delivering Performance*

## A WORLD OF DIFFERENCE.

*"Concerning our shipment to Barcelona, everything arrived on time and our trials were more successful than we could have hoped for. Without your help, this project would have been in jeopardy. Your periodic calls gave me a comfort level that was needed."*

John Pinner  
Standard Candy

*It takes a lot to navigate the complexities of international shipping. For you, all it takes is Airways. Here's why*

**WORLD-CLASS EXPERIENCE.**

The International Division at Airways has a dedicated staff with long years of experience in successfully handling global shipments of all types and sizes. As our clients have expanded to serve the world market, we've been there with time-critical freight solutions to help them grow.

**ONE-ON-ONE ATTENTION.**

With Airways, you enjoy full time access to our operations staff at the home office. You also get one-on-one accountability. No more dealing with call centers in multiple branch offices with no method for handling information control. At Airways, you deal with one company – from one point of contact – in one location.

**GLOBAL EXPERTISE.**

We offer our customers expertise in several key specialized international shipping areas, including trade shows, anatomical import/export, performing arts and nuclear utilities. Airways also staffs multiple personnel trained and certified in the movement of

Dangerous Goods, Radioactive Materials and Biohazardous Goods. And because we do it every day, we know how to navigate through the often confusing requirements set forth by U.S. government agencies such as Fish & Wildlife, FDA, FCC & EPA.

**FLEXIBLE OPTIONS.**

Our history in global freight has aligned Airways with some of the world's best and most trusted carriers – trucking, ocean, airlines and special couriers alike. And we offer true intermodal service with customized expedited inland carriage.

**OCEAN CARGO.**

Airways even operates a division dedicated exclusively to ocean shipping – with service

to anywhere in the world. Our Sea Freight Division specializes in LCL, FCL, break-bulk for oversized freight, plus full import/export documentation and inventory management services, all provided by top notch people using industry-leading software for purchase order tracking.

**SUPERIOR NETWORK.**

Airways' global operations have been built over many years, tested under the most demanding situations. Our overseas partners respond and communicate with the same sense of commitment and urgency as does our U.S.-based staff. You get consistent dedication to service regardless of your shipment's point of origin or destination. And we can administrate all aspects of customs for you – permanent, temporary, carnet and drawback.

*It's a big, complicated world out there. Having Airways manage your international cargo is simply a good decision.*
