

Delivering Performance

EXHIBITING SUCCESS

Exhibiting Innovation

Entering the trade show transportation market in 1985, Airways Freight quickly understood the over-whelming need for a service provider with a commitment to the exhibitor. At the time, shipping costs were astronomical, and service was a secondary consideration.

With a strong background in expedited freight and a methodical entry in the business, it wasn't long before Airways was able to create substantial cost savings and for the first time, give the exhibitor a refreshingly reliable, worry-free service. Show organizers recognized the reputation Airways had developed amongst their exhibitors, and official carrier appointments followed rapidly. Never had the industry seen innovation such as complimentary pre-printed bills of lading and labels, a process now imitated by many, but pioneered by Airways. All directed at making life easier for the exhibitor.

Leading the way for Airways from the beginning are our proactive and caring people who stand vigil for you 24 hours a day. We are always ready to communicate every milestone in the shipment process. Yesterday and today, exhibiting companies throughout the world know that when protecting their exhibit investment is essential, Airways is still the only one to call.

Exhibiting Unlimited Possibilities

Firm relationships with show organizers

Clear understanding of all phases of event planning mutual respect & cooperation with show contractors

Consulting with you for best possible shipping cost

Advocating on your behalf expedited marshalling where possible

No failure - pulling all stops to assure your exhibit arrives on-time and intact

Electronic communication exchange of your choice

Dramatically reduce stress

Exhibiting Commitment

When companies make lofty promises beyond their expertise or capability to deliver, the result is never favorable. In the trade show industry, this is potentially disastrous for the exhibit organizer relying upon their chosen transportation provider for one hundred percent compliance with their instructions, budgetary constraints, handling requirements, and timelines. Shipping failures correlate directly to lost revenue and can even be a direct reflection on the exhibiting company's professionalism.

With proven knowledge of the intricacies of exhibit transport throughout the world, Airways has the capabilities and relation-ships to deliver on our commitments to you. Exceeding expectation is our primary goal.

As with exhibiting companies working with Airways for decades, the focus has and always will be in preserving long-term relationships with the clients we serve.

Exhibiting Solutions

Airways places the world's transportation network at your fingertips. If it can be moved by Land, Air or Sea, it can be done by our team of tenured and highly experienced trade show professionals.

Around the corner or around the world, one show or a complicated schedule of shows, overlapping itineraries, customs clearances, ocean moves, exclusive-use trucks or aircraft.

Virtually no limits are placed on your ability to access the services you require for positive assurance of your event's success. If thought to be the impossible, Airways could very well be the surprise you are looking for.
